Subject Re: Fw: WA 1-04, Task 4 Draft Report

Brian,

I must have had a senior moment, I assumed that since you were the WAM on the Risk Assessment WA, you would send the issues to Ray Wood. I'll send them right away.

Reid,

Did you ever send the comments (b)(5) - Deliberative Process to Ray Wood? I could do it but process wise it is probably best to come from the WAM.

Brian

Subject: WA 1-04, Task 4 Draft Report

Good morning Brian,

Attached for EPA's review is the draft report for WA 1-04 "Risk Assessment Revision for

40 CFR Part 61 Subpart W – Radon Emissions from Operating Mill Tailings," Task 4 "Detailed Risk Estimates". There are two events that are beyond SC&A's control which may cause the dose/risk estimates to change:

(b)(5) - Deliberative Process Privilege

A large black rectangular redaction box covering several lines of text.A large black rectangular redaction box covering several lines of text.

If either or both of these events occur, SC&A will update the doses/risks in the final version of the report. Also, in the final version of the report, once all of EPA's comments on the draft report have been addressed, SC&A will sign the signature page.

Steve
